

**4 CLEAN TEATS!**

**AT LAST, A TEAT DIP THAT  
IS GENTLE TO YOUR COWS  
AND HANDS, AND IS CLINICALLY  
PROVEN TO KILL GERMS.**

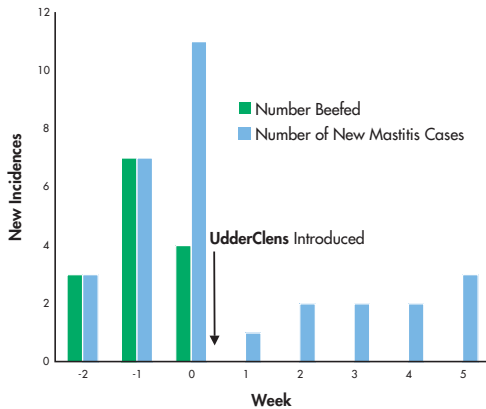

Take a moment to think about it...are your hands being damaged by your cows' teat dip? Research has shown that disease may be passed more easily from person to person if the skin is in bad shape. The same goes for you and your herd. Good skin condition for the herdsmen's hands decreases the chances that they may pass mastitis-causing germs to your herd.

## FEATURES

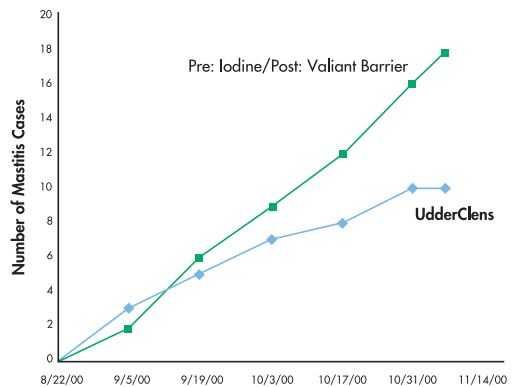

- **Very Cost Effective**
- **Prevents Mastitis**
- **Gentle, Conditioning Formulation**
- **Better Value, Consistently Outperforms, Field-Tested**
- **Pleasant Fragrance, Iodine and Chlorite Free**
- **Non-toxic – No Wiping Necessary**
